ACCESSIBLE HOTELS GUIDE 2025

LIGURIAN HOTELS ACCESSIBLE TO PEOPLE WITH DISABILITIES

This guide is the natural continuation of the path initiated by Regione Liguria with the Accessible Beaches Guide, which since 2023 has made access to equipped beaches easier and more transparent for people with disabilities. In 2025, that commitment is expanded and developed through the publication of the first Accessible Hotels Guide - a new tool that is already an integral part of the broader Accessible Liguria project: a concrete commitment to building a region that is truly open to everyone.

This is more than just a list. The guide is the result of a meticulous survey conducted on an initial selection of hospitality facilities - hotels, residences, and holiday apartments - that voluntarily joined the initiative. The data was first provided through self-certification and then verified on-site by teams of volunteers, based on the guidelines developed by the Regional Council for the Protection of the Rights of People with Disabilities. The fieldwork was completed in May 2025.

The facilities are classified into two categories: **accessible** and **conditionally accessible**, depending on their level of usability. For each facility, available services are clearly indicated both in the legend and in the technical appendix, which offers a more in-depth overview. The goal is to provide a practical and transparent tool for travelers seeking reliable information.

However, this guide is also a signal of intent: it reflects the Region's commitment to building, over the medium term, a complete and evolving map of accessibility in Liguria - not only along the coast, but also inland, in cities, villages, and cultural sites. It addresses not only physical disabilities but also sensory, temporary, or complex impairments. In this first edition - published ahead of the 2025 Accessible Beaches Guide - particular attention has been paid to accessibility for people with visual and hearing disabilities, highlighting every service that contributes to a truly welcoming experience.

The creation of the Accessible Hotels Guide 2025 is the result of a solid network of collaborations. Regione Liguria - through the involvement of the Departments of Tourism, Urban Planning, and Health and Social Policies - has worked closely with the Regional Council for the Protection of the Rights of People with Disabilities, the Ligurian Regional Office of INAIL (Italian Workers' Compensation Authority), the Genoa branch of AISM (Italian Multiple Sclerosis Association), and, for the second consecutive year, with the valuable support of the National Police Association, Genova O.d.V. and P.C. Group.
